P. & F. CORBIN'S

**Illustrated Catalogue**

AND

**PRICE LIST**

OF

**BUILDERS', CABINET,**

AND

**MISCELLANEOUS HARDWARE,**

INCLUDING

**LOCKS, LATCHES,**

AND

**ORNAMENTAL BRONZE GOODS.**

---

MANUFACTORY, NEW BRITAIN, CONN.

Warehouse, 55 Beekman Street, New York.

---

MAY, 1871.

---

Entered according to Act of Congress, in the year 1871, by  
P. & F. CORBIN,  
In the Office of the Librarian of Congress, at Washington.

---

N presenting to the Hardware trade our Illustrated Catalogue and Price List for 1871, we desire to call attention to the increased variety of our productions, particularly in the line of Builders' Hardware, also to the improvements in patterns of Locks, style of Keys, etc.

We are giving special attention to the department of BRONZE HARDWARE, aiming to produce a style of ornamentation pleasing in effect, together with a uniformity of color, and permanency of finish, hitherto unsurpassed. Our Bronze Metal goods are warranted genuine SOLID BRONZE METAL, free from the objections made to Electro Bronze, and better calculated to bear exposure to atmospheric changes. Goods of Tucker's Patent Bronze are much superior to the common lacquered articles (made in imitation), both in finish and durability of color.

Hoping to be favored with your orders, we remain,

Very Respectfully,

P. & F. CORBIN.

*New Britain, Conn., May, 1871.*

## **TERMS.**

---

Net Cash, payable in funds at par in New York or Boston.

Bills having run thirty days will be subject to our draft at sight.

For present prices see Discount Sheet.

A moderate charge will be made for Cases.

May, 1871.

In ordering, please state if wanted RIGHT or LEFT hand.

The above Butts are specially designed for heavy Inside hard-wood finish Doors, being superior to Hand Plated, in the fact that they do not require cleaning. The color of the bronze matches the wood, and with the scroll ornamentation forms a neat and elegant finish. Each pair put up in paper boxes, with Bronzed Screws. These Butts should not be put on Outside Doors, as the finish will not stand exposure to the weather.

For Solid Bronze Metal Butts for Outside or Inside Doors, see list of Bronze Goods.

982	Porcelain Knob, Plated Mountings, - - - - -	4.00
For Ornamental Bronze see list of Bronze Goods.		

TURNBULL'S PATENT

## Double Stroke Gong Door Bell.

Patented June 13th, 1865. Re-issued May 18th, 1869.

Adapted for Door, Casing, or Rear Hall.

Operated with a Pull.

Fig. 1. Movement.

The advantages of this Bell over any other made are, that it can be used for either door or casing, or with wire and pulleys, or cranks; can be put up in any part of the house. With an easy pull of the knob it will cause the hammer to strike two distinct blows. The movement is so simple and efficient that it will not easily get out of repair, and the Bell, with the Trimmings, is adapted to every style of house.

See Cuts of Bell and Trimmings, pages 308 and 309, and List, page 310.)

# Patent Gong Door Bell.

Fig. 2. 5 inch Bell.

No. 1. Door Plate and Pull.

# Bell Pulls for Patent Gong Door Bell.

No. 2. Casing Plate and Pull.

Nos. 3 and 8. Solid Star Plate and Pull.

Nos. 4, 5, 6 and 7. Pull.

No. 9. Open Star Plate and Pull.

(See List of Pulls, page 311.)

(For Ornamental Bronze Bell Pulls, see list of Bronze Goods.)

# Cochrane's Patent Door Guard.

Door with the Guard attached, OPEN.

First Premium Awarded at the International Industrial Exhibition, 1869.

Door with the Guard attached, CLOSED.

Adapted for STREET DOORS, BASEMENT DOORS, SIDE DOORS, BACK DOORS, BEDROOM DOORS, and ALL DOORS where there is any danger of BURGLARS.

## A Sure Security against Hall Thieves!

The advantages of this Door Guard over the ordinary kind are, the facility with which the parts can be engaged and disengaged, the security it affords against being unlocked while the door is ajar, and the facility with which it can be detached from the door and jamb when its use is not desired. They also do not mar the door.

### LIST.

No. 2055,	Malleable Iron, Japanned, for Back and Basement Doors,	-	per dozen,	\$7.50
No. 2056,	Brass, Polished and Lacquered, for Street and Bedroom Doors,	-	"	15.00
No. 2057,	Silver Plated, for Street and Bedroom Doors,	-	"	27.00
No. 2058,	Oriental Bronzed, for Hardwood Finish Doors,	-	"	25.00

### DIRECTIONS FOR ATTACHING COCHRANE'S PATENT DOOR GUARD TO ANY DOOR.

Screw the Plate (with short arm attached) on the edge of the door, as shown in the engraving, the side with the STOP HINGE towards the opening.

Screw the Plate (with slotted arm attached) on the jamb of the door, (when there are double doors, on the door that remains closed,) far enough from the edge to allow the large opening in the slotted arm to pass over the short arm, when the latter is pushed as far as the stop on the hinge will admit of it, towards the jamb.

We have the sole and exclusive right to manufacture the above Door Guard.

# Patent Ornamental Sash Fasteners.

Made Under Falconer's Patent.

Improved Pattern.

Nos. 1903 to 1906.

No.	PACKED WITH BRONZED SCREWS.	Per dozen.
1906	Solid Bronze Metal, - - - - -	\$5.00

EXTRA HEAVY

# Ornamental Bronze Sash Fastener.

For Heavy Windows.

No. 2290.

No.		Per dozen.
2290	Bronze Metal, with Screws, - - - - -	\$15.00

In the above Fastener a Spring Catch is employed to retain the swinging Lever securely in place when the window is fastened.

By depressing the thumb-piece in front of the Case to unlock the Fastener, the Catch is disengaged, and a Spring at the Hub moves the Lever back out of the way. The Catch and Springs are protected by the boxes enclosing the same.

Patent applied for.
